

 DeFi Pool

DFP Tokenomics

DFP token

The DFP token plays a key role within the DeFi Pool ecosystem and fuels its functionality. At its core is a design that unlocks benefits for both B2B and B2C customers within the platform's products therefore improving the value proposition.

DFP Token Utility

Fee Payments:

Use the token to pay swap and bridge fees on the platform

Farming & Staking:

Token holders can earn rewards through staking or providing liquidity, receiving rewards in tokens or revenue shares.

Governance (DAO Voting):

The token grants voting rights in platform governance: choosing new listings, adjusting fees, launching partnerships, and more.

Launchpad Access:

Exclusive access to token sales, presales, and airdrops of new projects launched via the DEX — for token holders only.

Access to Premium AI Tools:

Only token holders can unlock advanced AI features like optimal routing analytics, pool comparisons, and risk scoring.

Token-Based Achievement System:

Earn NFTs and exclusive rewards by completing tasks tied to token usage — such as reaching certain trading volumes, holding periods, or liquidity milestones.

Partner rewards:

Token holders receive special benefits from our partners, such as reduced fees and bonuses on DeFi services, NFT markets, wallets, and launchpads.

Paid API Access:

The token acts as a key to unlock premium API endpoints offered by the platform.
